Guide to Completing the Membership Application

The Holland Society of New York will only accept completed Holland Society applications. We do not accept applications from other genealogical societies (e.g. completed applications from the Daughters of the American Revolution or Sons of the American Revolution) in place of a Holland Society application. However, you are welcome to use the same references, provided they meet the standards listed below.

Each entry in the line of descent from the qualifying ancestor, or to the person included in an approved lineage of a past or present member, must be documented and tied in with the immediately preceding generation. The membership application has a space for each generation for “supporting documentation.” Please list the supporting documentation you will be providing for each generation, using one line for each document. Supporting documentation can either be attached to an email (in which case, please also provide the file name in the supporting documentation section) or mailed to the office with your application.

Supporting documentation must be included with your application at the time of submission. We do not accept applications without supporting documentation.

Approved supporting documentation include copies of the following:

- Birth and death certificates
- Baptism and marriage records
- Wills
- Dated newspaper clippings of obituaries or announcements
- Photographs of gravestones showing birth and death dates
- Data from published secondary sources, such as:
 - Fully documented and published family genealogies
 - Published histories
 - Family bible records (Bible records can only be used in addition to another source)

If you use a published work as supporting documentation, you must provide a citation, including title, author, place and date of publication, and page number.

We do not accept the following as supporting documentation:

- Online genealogy database family trees (e.g. Ancestry.com, familysearch.org)
- DNA

Character Reference and Proposer Forms

Completed character reference forms are required only for new line and legacy applications. A completed character reference form is not required for the junior membership application.

If you know a member who will propose you for membership, be certain to have them sign their name on the proposer form. If you do not know any members of the Society, please contact the Membership Chair at membership@hollandsociety.org.

The Character Reference form can be completed by two individuals who know you on a personal or professional level.

Please send the completed, signed application, character reference form, proposer form, and any supporting documentation to Society headquarters, either by mail or to info@hollandsociety.org.

Please do not send admission fees or dues with your application, which will be processed upon receipt by the Membership Committee and the Genealogy Committee before being submitted to the Board of Trustees for its consideration.

If you have any further questions, please contact the Main Office at info@hollandsociety.org or 212-758-1675, or the Membership and Genealogy Chairs, at membership@hollandsociety.org or genealogy@hollandsociety.org.
